Section II—Cover Sheet

This cover sheet is to be completed for each Time Extension (TE) or Alternative Diversion Requirement (ADR) requested.

1. Eligibility

Has your jurisdiction filed its Source Reduction and Recycling Element, Household Hazardous Waste Element, and Nondisposal Facility Element with the Board (must have been filed by July 1, 1998 if you are requesting an ADR)?

☐ No. If no, stop; not eligible for a TE or ADR.

☒ Yes. If yes, then eligible for a TE or ADR.

2. Specific Request and Length of Request

Please specify the request desired.

☒ **Time Extension Request**

Specific years requested _Through December 31, 2005

Is this a second request? ☒ No ☐ Yes Specific years requested. _2004, 2005_____
(**Note:** Requests for an additional extension will need to address why the jurisdiction's efforts to meet the 50% goal by the end of the first extension were not successful.)

☐ **Alternative Diversion Requirement Request (*Not allowed for Regional Agencies*).**

Specific ADR requested _ _____%, for the years_ _____.

Is this a second ADR request? ☐ No ☐ Yes Specific ADR requested _ _____%, for the years_ _____

(**Note:** Requests for an additional ADR will need to address why the jurisdiction's efforts to meet 50% by the end of the first ADR period were not successful.)

Note: Extensions may be requested anytime by a jurisdiction, but will only be effective in the years from January 1, 2000 to January 1, 2006. An original request for a TE/ADR may be granted for any period up to three years and subsequent requests for TE/ADR may extend the original request or be based on new circumstances but the total number of years for all requests cannot total more than five years or extend beyond January 1, 2006.

Section IIIA—TIME EXTENSION

Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CIWMB shall determine your jurisdiction's progress in demonstrating "good faith effort" towards complying with AB 939. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.

Attach additional sheets if necessary—please reference each response to the appropriate cell number (e.g., IIIA-1).

1. Why does your jurisdiction need more time to meet the 50% goal? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.

The City has been implementing programs to reach the 50% diversion rate and though it was achieved in 2000, the rate has dropped to 45% in 2003. Although many programs are in place and are being implemented, there are other factors that are affecting the current diversion.

The City has gone through a period of little or no construction in the early and mid 1990's and is now experiencing a large increase in growth, a surge in building additions, redevelopment and new construction. Since the late 1990's the City has experienced a 23% increase in the number of building permits issued. Although construction material has been diverted from the landfill since 2000, there is currently no mechanism in place to account for the various types of materials. The City is in the process of considering and adopting a Construction and Demolition Ordinance that will further promote the recycling of construction and demolition waste and will provide a mechanism to account for the material generated and diverted. In addition, within a period of one year, the waste hauler will be developing a mixed C & D recycling facility that will further the C & D diversion efforts.

One of the biggest barriers that the City faces is the properties within the City that contribute to the disposal rates in the City and that the City has no jurisdiction in the implementation of their programs. These include the Navy facilities and the schools. The City has made several efforts to approach these two entities with very little to no results. The Navy has been under an extensive growth on the Navy Outlying Field, adding commands and expanding services. The City will continue to approach the Navy and the schools to assist with the City's compliance efforts and will work with the Board staff to address this issue.

The City will also be re-instating the City's Recycling All-Star program which randomly selects a resident every month and awards them a check from the hauler if they have recycled. This program will increase the awareness about the City's recycling program among current residents and new residents moving in.

2. Why does your jurisdiction need the amount of time requested? Describe any relevant circumstances in the jurisdiction that contribute to the need for a Time Extension.

The City needs additional time to review and adopt a C&D ordinance through the City Council and to allow the waste hauler to site a mixed C&D recycling facility. In addition, the City will need time to provide outreach and education to contractors, multi-family complexes, businesses, residents, Navy, schools, and to re-instate the Recycling All-Star Program to promote recycling to all residents.

3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.

The City has implemented all of the City's SRRE selected programs plus several additional diversion programs. Some of the major programs implemented by the City include: residential curbside and residential greenwaste collection programs, a commercial on-site collection program, a procurement policy for recycled content products, C&D recycling through the City's hauler, education and outreach programs to encourage residents and businesses to participate in the City's recycling opportunities, and developed new e-waste collection event. The City also continues its City wide garage sale and clean up event which encourages residents to reuse and recycle un-needed items and materials. The City also participates in the Household Hazardous Waste Program and Used Oil Recycling program.

4. Provide any additional relevant information that supports the request.

Section IIIB—ALTERNATIVE DIVERSION REQUIREMENT

Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CIWMB shall determine your jurisdiction's efforts in demonstrating "good faith effort" towards complying with AB 939. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.

Attach additional sheets if necessary—please reference each response to the appropriate cell number (e.g., IIIB-1.).

1. Why does your jurisdiction need and Alternative Diversion Requirement? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.

2. Why is your jurisdiction requesting an Alternative Diversion Requirement in lieu of a Time Extension?

3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.

4. Describe any relevant circumstances in the jurisdiction that contribute to the need for an ADR. Provide any relevant information that supports the request.

Section IV A—PLAN OF CORRECTION

A Plan of Correction is required by PRC Section 41820(a)(6)(B). The plan is fundamentally a description of the actions the jurisdiction will take to meet the 50% goal by the expiration of the Time Extension.
